Tell us about the Project, how it will work, what it will do, who will do it and things like that: The purpose of the project is to identify individuals who care for adults with learning disabilities and offer them a carer's assessment or review. This particular aspect of the project will be carried out by Sue Satterthwaite, although there is an existing part time worker in the team also involved in this work.
What outcomes, targets or goals would your project achieve? It is anticipated that: an average of 2 reviews a week will be booked and completed. These assessments/reviews will highlight areas of support required and seek to identify appropriate resources to meet individual needs. In the process of this it is likely that a number of carers will be identified who do not want assessments or reviews and will be recorded on the council's social services database.
