

Learning Disabilities Self Assessment Framework for Health Data Collection Comparison: 2009 - 2011

Population Data

	2009	2010	2011
1. Children with learning disability aged 0 – 13 years	N/A	N/A	33
2. Children with learning disability aged 14 – 18 years	N/A	N/A	39
TOTAL	63	81	72
3. Young people with learning disability aged 19 – 25 years	N/A	N/A	117
4. Adults with learning disability aged 26 – 64 years	N/A	N/A	378
5. Adults with learning disability aged 65+ years	N/A	62 (9% of 656 or 7% of 949)	81
TOTAL	873 - QOF	656 (949 - QOF)	576 (1016 QOF)
6. Children with learning disability AND autism aged 0 – 17 years	N/A	N/A	11 (15% of 72)
7. Adults with learning disability AND autism aged 18+ years	N/A	N/A	35 (6% of 576 or 3% of 1016)
8. Adults with Downs Syndrome aged 18 – 64 years	N/A	N/A	55
9. Adults with Downs Syndrome aged 65+ years	N/A	N/A	1
10. Total number of adults aged 18+ years with a learning disability from minority ethnic groups	20	49 (7% - 656 or 5% of 949)	40 (7% - 576 or 4% - 1016)
11. Total number of family carers of people with a learning disability	43	127	126
12. Number of family carers of aged 18 – 64 years	N/A	N/A	90 (71%)
13. Number of family carers aged 65 – 74 years	N/A	11 (9% of 127)	15 (12%)
14. Number of family carers aged 75+ years	N/A	6 (5% of 127)	7 (6%)
15. Number of family carers (18+) from ethnic minority groups	N/A	23 (18% of 127)	17 (13%)
16. Number of adults with a learning disability who are parents	N/A	N/A	9 (2% - 576 or 1% - 1016)
17. Number of adults with a learning disability who are carers	N/A	N/A	1 (0%)
18. Adults with Downs Syndrome AND dementia aged 18 – 64 years	N/A	N/A	2
19. Adults with Downs Syndrome AND dementia aged 65+	N/A	N/A	2 TOTAL = 4, 7% OF ALL DS

Health Data

	2009	2010	2011
20. Number of people with a learning disability that have a BMI recorded	N/A	433 (66% of 656 or 46% of 949)	463 (80% - 576 or 46% - 1016)
21. Of those with a BMI recorded, the number who have a BMI over 30	N/A	152 (35% of 433)	144 (31%)
22. Of those with a BMI over 30, the number offered dietary advice	36	94 (62% of 152)	109 (76%)
23. Number of people with a learning disability who have heart disease	7	12 (2% - 656 or 1% - 949)	23 (4% - 576 or 2% - 1016)
24. Of those with heart disease, the number who have received a review in the past 12 months	3	9 (75% of 12)	19 (83%)
25. Number of people with a learning disability and dysphagia	N/A (SALT data: 17 open, 31 d/c last 12 months)	N/A (SALT data: 7 cases open, 40 adults assessed last 12 months)	16 (3% - 576 or 2% - 1016)
26. Number of people with a learning disability and diabetes	13	28 (4% - 656 or 3% - 949)	29 (5% - 576 or 3% - 1016)
27. Of those with diabetes, the number who have received a review in the past 12 months	11	23 (82% of 28)	23 (79%)
28. Of those with diabetes, the number who have received retinal screening in the past 12 months	12	16 (57% of 28)	17 (59%)
29. Number of people with a learning disability and asthma	26	84 (13% - 656 or 9% - 949)	86 (15% - 576 or 9% - 1016)
30. Number of people with a learning disability and a mental health problem	45	66 (10% - 656 or 7% - 949)	71 (12% - 576 or 7% - 1016)
31. Number of people with a learning disability and epilepsy	77	120 (18% - 656 or 13% - 949)	106 (18% - 576 or 10% - 1016)

Cancer Screening

	2009	2010	2011
32. Number of people with a learning disability eligible for bowel screening	N/A	44	52
33. Of that total, the number who received bowel screening in the previous 2 years (1 st July 2009 to 30 th June 2011)	N/A	8 (18%)	6 (12%)
34. Number of people with learning disability ceased from the bowel screening programme	N/A	N/A	6 (12%)
35. Number of women with a learning disability aged 50 to 70 eligible for breast screening	29	43	49
36. Of that total, the number who received breast screening in the previous 3 years (1 st July 2008 to 30 th June 2011)	24	12 (28%)	20 (41%)
37. Number of women with a learning disability ceased from the breast screening programme	N/A	N/A	14 (29%) (+ 2 declined – 4%)
38. Number of women with learning disability aged 25 – 64 years eligible for cervical screening	54	139	127
39. Of that total, the number who received cervical screening at least once in the previous 5 years (1 st July 2006 to 30 th June 2011)	23	40 (29%)	54 (43%)
40. Number of women with a learning disability ceased from the cervical screening programme	N/A	3 (2%) (+ 1 disclaimer) (1%)	28 (22%) (+ 4 declined – 3%)

Number of practices that returned data:

	2009	2010	2011
Returned data	14 (29%)	24 (50%)	23 (49%)
Declined	0	2 (4%)	5 (11%)
Did not respond	34 (71%)	22 (46%)	19 (40%)
TOTAL	49	48	47
